

Directions to Bolton Engineering from the north (southbound on I-93)

Heading South on Interstate 93, north of Boston, take the Melrose exit (Exit 35, second exit after I-95).

Turn **LEFT** at the bottom of the ramp and continue under the bridge.

Turn **RIGHT** as the road ends in a T-junction.

Proceed through the light (at the intersection with a Friendly's restaurant and a Mobil station).

Continue as the road swings right, past the Stone Zoo (on your right). The road will swing left, pass along the edge of the lake, and then swing right. Take the next **LEFT** across the median strip onto **Pond Street** (with "Melrose" sign). Caution: There is another Pond Street in Stoneham, just before the zoo. You must go past the Stone Zoo before turning.

Go ¼ mile to the first set of lights. There will be a restaurant on the left corner. Continue straight (the street name changes to **West Wyoming Ave.** at this intersection).

Go about ½ mile until you see railroad tracks in front of you. There will be a convenience store on the right corner. Turn **RIGHT** just before the store and the tracks onto **Pleasant Street**.

Go about ½ mile until you see a large brick mill building on the left. Just before this building, turn **LEFT** onto **Stone Place**. Park in the lot across Stone Place from the building.

Bolton Engineering is on the third floor of the building. Go in the front door (on the Pleasant Street side), go up the stairs, and Bolton Engineering is the first door on the right. **Phone number: 781-662-1670**
